

## TABLE OF CONTENTS

EXECUTIVE SUMMARY .....	ES-1
1.0 INTRODUCTION .....	1-1
1.1 Background .....	1-1
1.2 Previous Investigations at the 4H Shell Mounds .....	1-3
1.3 Report Organization .....	1-7
2.0 METHODS AND MATERIALS .....	2-1
2.1 Caged Mussel Bioassays .....	2-1
2.1.1 Sampling Design .....	2-1
2.1.2 Sampling Locations .....	2-2
2.1.3 Mooring Design .....	2-7
2.1.4 Mussel Collection and Processing .....	2-7
2.1.5 Mooring Deployment .....	2-11
2.1.6 Mooring Recovery .....	2-11
2.1.7 Post-Deployment Processing .....	2-12
2.1.8 Mussel Tissue Contaminant Analysis .....	2-12
2.1.9 Data Analysis .....	2-16
2.2 Semipermeable Membrane Devices .....	2-19
2.2.1 Sampling Design .....	2-19
2.2.2 Sampling Locations .....	2-20
2.2.3 SPMD Deployment .....	2-21
2.2.4 SPMD Recovery and Processing .....	2-22
2.2.5 SPMD Analyses .....	2-22
2.3 Surficial Sediments .....	2-23
2.3.1 Sampling Design .....	2-23
2.3.2 Sampling Locations .....	2-23
2.3.3 Sampling Methods .....	2-23
2.3.4 Sample Analyses .....	2-25
2.4 Current and Temperature Measurements .....	2-25
2.4.1 Sampling Design .....	2-25
2.4.2 Mooring Locations .....	2-26
2.4.3 Mooring Design and Fabrication .....	2-27
2.4.4 Mooring Deployment and Recovery .....	2-28
3.0 RESULTS .....	3-1
3.1 Weather and Oceanographic Conditions .....	3-1
3.1.1 Weather .....	3-1
3.1.2 Currents .....	3-1
3.1.3 Water Temperature .....	3-4
3.2 Caged Mussel Bioassay .....	3-4
3.2.1 Mussel Survival .....	3-4
3.2.2 Growth .....	3-4
3.2.3 Tissue Lipids .....	3-20

3.2.4	Contaminant Bioaccumulation .....	3-21
3.3	Semipermeable Membrane Devices .....	3-37
3.4	Surficial Sediments .....	3-42
3.4.1	Grain Size.....	3-42
3.4.2	General Chemistry .....	3-42
3.4.3	Trace Metals.....	3-44
3.4.4	Organotins.....	3-44
3.4.5	Pesticides and PCBs.....	3-48
3.4.6	Polycyclic Aromatic Hydrocarbons (PAHs).....	3-49
3.4.7	Total Petroleum Hydrocarbons (TPH) and Total Recoverable Petroleum Hydrocarbons (TRPH).....	3-51
3.4.8	Volatile Organic Compounds (VOCs) .....	3-52
3.4.9	Phenols and Phthalates .....	3-52
4.0	DISCUSSION .....	4-1
5.0	CONCLUSIONS .....	5-1
6.0	REFERENCES .....	6-1

## **APPENDICES**

Appendix 1	Sampling and Analysis Plan
Appendix 2	Applied Biomonitoring Report
Appendix 3	Tissue Chemistry Data/QA Case Narrative
Appendix 4	SPMD Chemistry Data/QA Case Narrative
Appendix 5	Surficial Sediment Chemistry Data/QA Summary

## **LIST OF FIGURES**

1-1	Chevron 4H Shell Mounds and Reference Sampling Locations.....	1-2
1-2	Bathymetry at the 4H Shell Mounds.....	1-5
2.1-1	Sampling Locations at the Hazel Shell Mound .....	2-4
2.1-2	Sampling Locations at the Hilda Shell Mound .....	2-4
2.1-3	Sampling Locations at the Hope Shell Mound .....	2-5
2.1-4	Sampling Locations at the Heidi Shell Mound.....	2-5
2.1-5	Sampling Locations at the Shallow Reference Site.....	2-6
2.1-6	Sampling Locations at the Deep Reference Site.....	2-6
2.1-7	Mussel Cage Design .....	2-8
2.2-1	Photograph of SPMD Canister Containing Spider Carriers with SPMD Lipid Bags .....	2-21

3.1-1	Daily Rainfall (cm) and Maximum 2-Minute Wind Speeds in Santa Barbara, CA During February 22 to April 23, 2003. Data were obtained from the Western Regional Climate Center.....	3-2
3.1-2	Times Series of Currents and Water Temperatures at the Deep (SBSM-2) and Shallow (SBSM-1) Current Meter Moorings.....	3-3
3.1-3	Current Ellipses for the Tidal Component (M2 Lunar Tide) at the Shallow (SBSM-1) and Deep (SBSM-2) Current Meter Moorings. ....	3-5
3.1-4	Coherence and Phase of Currents at the Shallow (SBSM-1) and Deep (SBSM-2) Current Meter Moorings.....	3-6
3.1-5	Comparisons of Time Series for Significant Wave Height (m) and Wind Velocity (m/s) at NDBC Buoy 46053, Currents at Shallow Current Mooring (SBSM-1), and Water Temperatures at the Shallow Shell Mound and Reference Sites.....	3-7
3.1-6	Comparisons of Time Series for Significant Wave Height (m) and Wind Velocity (m/s) at NDBC Buoy 46053, Currents at Deep Current Mooring (SBSM-2), and Water Temperatures at the Deep Shell Mound and Reference Sites.....	3-8
3.2-1	Mussel Length Metrics .....	3-10
3.2-2	Mussel Whole Animal Wet Weight (WAWW) Metrics.....	3-12
3.2-3	Mussel Soft Tissue Weights.....	3-13
3.2-4	Mussel Shell Weights.....	3-14
3.2-5	Box-Whisker Plot of Lipid Concentrations (% dry weight) in Mussel Tissues.....	3-21
3.2-6	Box-Whisker Plots of Metal Concentrations (mg/kg dry weight) in Mussel Tissues.....	3-24
3.2-7	Box-Whisker Plots of Metal Concentrations (mg/kg dry weight) in Mussel Tissues.....	3-25
3.2-8	Box-Whisker Plots of Metal Concentrations (mg/kg dry weight) in Mussel Tissues.....	3-26
3.2-9	Box-Whisker Plots of Pesticide and PCB Concentrations (ng/g dry weight) in Mussel Tissues .....	3-29
3.2-10	Proportions by Weight of Individual PCB Congeners in Mussel Tissues from the Shell Mound and Reference Sites and Beginning-of-Test (BOT) Samples. ....	3-31
3.2-11	Box-Whisker Plots of PAH Concentrations (ng/g dry weight) in Mussel Tissues.....	3-38
3.2-12	Concentrations of Individual PAHs (ng/g dry weight) in Shell Mound and Reference Site and Beginning-of-Test (T0) Mussel Tissue Samples. ....	3-39
3.4-1	Comparison of Fines (% Silts + Clays) in Sediments Near the 4H Shell Mounds with those of the Shallow and Deep Reference Sites (red horizontal lines) and Bight'98 Regional Monitoring Program Sites in the Santa Barbara Channel.....	3-43
3.4-2	Comparison of Total Organic Carbon Concentrations (% dry weight) in Sediments Near the 4H Shell Mounds with those of the Shallow and Deep Reference Sites and Bight'98 Regional Monitoring Program Sites in the Santa Barbara Channel.....	3-45

---

**Table of Contents**

---

3.4-3	Comparison of Barium Concentrations (mg/kg dry weight) in Sediments Near the 4H Shell Mounds with those of the Shallow and Deep Reference Sites and Bight'98 Regional Monitoring Program Sites in the Santa Barbara Channel.....	3-46
3.4-4	Comparison of Zinc Concentrations (mg/kg dry weight) in Sediments Near the 4H Shell Mounds with those of the Shallow and Deep Reference Sites and Bight'98 Regional Monitoring Program Sites in the Santa Barbara Channel.....	3-46
3.4-5	Distributions of Barium (mg/kg dry weight) in Surface Sediments Near Each of the 4H Shell Mounds.....	3-47
3.4-6	Comparison of PCB Concentrations (ng/g dry weight) in Sediments Near the 4H Shell Mounds with those of the Shallow and Deep Reference Sites and Bight'98 Regional Monitoring Program Sites in the Santa Barbara Channel. Circles represent non-detected results.....	3-50
3.4-7	Distributions of PCBs (ng/g dry weight) in Surface Sediments Near Each of the 4H Shell Mounds.....	3-50
4-1	Barium Concentrations (mg/kg) in Shell Mound Cores (Blue Boxes) and Bottom Sediments Adjacent to the Shell Mounds (Yellow Boxes).....	4-4
4-2	Zinc Concentrations (mg/kg) in Shell Mound Cores (Blue Boxes) and Bottom Sediments Adjacent to the Shell Mounds (Yellow Boxes).....	4-5
4-3	Lead Concentrations (mg/kg) in Shell Mound Cores (Blue Boxes) and Bottom Sediments Adjacent to the Shell Mounds (Yellow Boxes).....	4-5
4-4	PCB Concentrations (µg/kg) in Shell Mound Cores (Blue Boxes) and Bottom Sediments Adjacent to the Shell Mounds (Yellow Boxes).....	4-6

### **LIST OF TABLES**

1-1	Summary of Shell Mound Surveys .....	1-4
1-2	Summary of Shell Mound Strata .....	1-5
2.1-1	Mussel Mooring Coordinates and Deployment Periods .....	2-3
2.1-2	Number of Mussels in 1-mm Size Groups Measured During the Rough Sort .....	2-9
2.1-3	Mean Shell Length and Whole-Animal Wet-Weight (WAWW) by Station at Beginning of Test (BOT) .....	2-10
2.1-4	Target Method Detection Limits (MDL) Achieved and Reporting Limits (RL) for Metals in Mussel Tissue Samples .....	2-14
2.2-1	SPMD Sample Coordinates. ....	2-20
2.3-1	Sediment Sampling Station Coordinates.....	2-24
2.4-1	Current Meter Mooring Coordinates.....	2-26
2.4-2	Thermister (Temperature Recorder) Coordinates and Depths.....	2-26
3.1-1	Summary of Current Data for Shallow and Deep Moorings During February 22 to April 27, 2003.....	3-2
3.2-1	Percent Survival by Individual Cage and Mean by Site.....	3-9
3.2-2	Summary of Mussel Growth Metrics .....	3-15
3.2-3	Summary of Results from Statistical Analyses of Mussel Growth Metrics.....	3-18

3.2-4	Average Metal Concentrations (mg/kg dry wt) in Mussel Tissues. Values of one-half the reporting limit were used for non-detected results to calculate means. ....	3-19
3.2-5	Summary of Results from Statistical Analyses of Mussel Tissue Metals Bioaccumulation Data .....	3-23
3.2-6	Average Concentrations (ng/g dry wt) of Pesticides and Polychlorinated Biphenyls in Beginning (T0) and End-of-Test Mussel Tissues .....	3-28
3.2-7	Summary of Results from Statistical Analyses of Mussel Tissue Pesticide, PCB, and PAH Bioaccumulation Data .....	3-31
3.2-8	Average Concentrations (ng/g dry wt) and Component Ratios of Polycyclic Aromatic Hydrocarbons in Beginning (T0) and End-of-Test Mussel Tissues. ....	3-33
3.2-9	Concentration by PAH Class (ng/g dw) and Percent of Total PAH .....	3-35
3.2-10	PAH Distribution by Source: Pyrogenic, Biogenic, and Petrogenic. Concentration (ng/g dw) and percent of total PAH. ....	3-40
3.2-11	Content of Low Molecular Weight (LMW), High Molecular Weight (HMW), and Total PAHs (ng PAH/mussel).....	3-40
3.4-1	Grain Size Distributions for Surficial Sediments Near the Shell Mound and Reference Sites.....	3-42
3.4-2	Ranges of Total Organic Carbon (%), Dissolved and Total Sulfides, and Ammonia (mg/kg) in Surficial Sediments in the Vicinity of Shell Mounds and Reference Sites.....	3-43
3.4-3	Ranges in Metal Concentrations (mg/kg) in Surficial Sediments Collected Near the Shell Mounds and Reference Sites .....	3-45
3.4-4	Concentrations (ng/g) of Organotins in Surficial Sediments Near the Shell Mounds and Reference Sites. ....	3-47
3.4-5	Concentrations of Selected Pesticides and PCBs (ng/g) for Surficial Sediments Collected Near the Shell Mounds and Reference Sites.....	3-48
3.4-6	Concentrations of PAHs (ng/g) in Surficial Sediments Near the Shell Mounds and Reference Sites. ....	3-49
3.4-7	TPH and TRPH Concentrations (mg/kg) in Surficial Sediments Near the Shell Mounds and Reference Sites. ....	3-51
